

# FOR IMMEDIATE RELEASE

## NUMI KINGDOM GLOBAL ENTERPRISE AND PREMIER FUNANCES\$ LAUNCH GREEN FINANCE, SMART CITY, AND DIGITAL CURRENCY INITIATIVES IN CAMEROON

Yaoundé, Cameroon — A historic partnership is emerging in Central Africa as Numi Kingdom Global Enterprise Corp (NKGE) and PREMIER FUNANCES\$ Credit Union, led by HRH Prince Gnitedem Feudjo Achilles, move to establish a comprehensive green finance and digital infrastructure platform in Cameroon. The initiative will focus on credit union banking expansion, Green Bond instruments, Net Zero carbon strategies, SMART City development, and blockchain-based digital currency systems.

At the center of the initiative is His Imperial Majesty, Emperor Muja'Dib Jamel El'Sori-Oser VIII, 8th-generation descendant of Prince Abdul Ibrahim ibn Sori, whose lineage traces back to African nobility disrupted during the transatlantic slave era.

His Majesty's leadership represents a bridge between the African diaspora and the continent — restoring economic ties severed centuries ago and rebuilding pathways for sovereignty through finance, trade, and technology.

HIRM Emperor Muja'Dib Jamel El'Sori-Oser VIII,  
8th-generation descendant of HRH Prince Abdul Ibrahim ibn Sori

The Emperor's foundation is rooted in the legacy of his ancestor, Prince Abdul Ibrahim ibn Sori, whose endurance through enslavement in America shaped a generational vision of reclamation and restoration. Today, that legacy manifests in institutional development, international trade alliances, and sustainable infrastructure designed to empower African nations and diaspora communities alike.

## CREDIT UNION AS FINANCIAL ANCHOR

Under the leadership of HRH Prince Gnitedem Feudjo Achilles, PREMIER FUNANCES\$ will serve as the financial anchor in Cameroon. The credit union platform is positioned to:

Mobilize local and diaspora capital

Structure Green Bonds for environmental and infrastructure projects

Support ESG-compliant investment frameworks

Provide community-based financial inclusion

The credit union model is designed to merge cooperative

banking principles with blockchain-backed transparency, allowing

local citizens, diaspora investors, and institutional partners to participate

in nation-building initiatives.

CEO HRH Prince Gnitedem Feudjo Achilles

# INTEGRATION OF NET ZERO & SMART CITY DEVELOPMENT

Dr. Vincent I. White, Prime Minister of the Kingdom of Numi and CEO of CETS Global Inc., brings global expertise in waste-to-energy systems, plasma gasification, and net-zero smart city engineering. As an active participant in the United Nations Global Compact since 2019, Dr. White aligns infrastructure projects with international sustainability standards and the UN's Ten Principles on human rights, environmental stewardship, labor, and anti-corruption.

In Cameroon's SMART City framework, CETS will integrate:

- Plasma gasification waste-to-energy systems
- Nanotechnology-based environmental solutions
- Tokenized Real-World Assets (RWAs)
- Renewable energy microgrid systems
- Circular economy urban design

Dr. Vincent I. White,  
Prime Minister of the Kingdom of Numi,  
CEO of CETS Global Inc.

These systems are designed to create multi-billion-dollar ESG-compliant development opportunities across emerging markets, with Cameroon serving as a strategic launch point.

## NKGE'S STRATEGIC LEADERSHIP

John Reed, newly appointed CEO of Numi Kingdom Global Enterprise (NKGE), brings over 25 years of cross-sector leadership in engineering, healthcare, financial services, and technology. Based in Atlanta, Reed has represented youth empowerment initiatives internationally, including participation in global peace conferences in Seoul, South Korea.

Under Reed's leadership, NKGE will:

- Oversee strategic trade alliances
- Coordinate diaspora investment flows
- Structure blockchain-based digital currency frameworks
- Facilitate SMART City partnerships
- Align banking and tokenization platforms

CEO John Reed (NKGE)

NKGE will serve as the Gatekeeper of business operations for the Kingdom, ensuring institutional oversight, governance alignment, and structured implementation.

## **DIGITAL CURRENCY & SMART TOKEN INFRASTRUCTURE**

A central feature of the Cameroon initiative is the development of smart tokens backed by real-world assets, renewable energy output, and infrastructure projects. The digital currency component will:

Enable transparent transaction systems

Support green bond settlement

Provide cross-border diaspora remittance solutions

Integrate with cooperative banking through PREMIER FUNANCES

This hybrid structure merges traditional cooperative finance with blockchain infrastructure to ensure traceability, transparency, and international compliance.

## **GLOBAL TRADE AND CHAMBER SUPPORT**

The initiative is further strengthened through collaboration with Ambassador Emmanuel Amara Vandi Fomba, Founder and Global President of the Global Chamber on African Trade, Rights and Economic Development (GCATRED). With over two decades of experience in financial management and humanitarian development, Ambassador Emmanuel Fomba has championed inclusive economic growth, ethical trade policy, and women's entrepreneurship across Africa.

Through GCATRED, the partnership gains:

Strategic global trade advocacy

Institutional governance frameworks

Ethical investment standards

International diplomatic channels

Bridging the Diaspora and the Continent

Amb. Emmanuel Fomba, GCATRED

This Cameroon initiative represents more than infrastructure development — it signals a symbolic and economic reconnection between Africa and its diaspora.

Emperor Muja'Dib Jamel El'Sori-Oser VIII's vision centers on sovereignty through structured economic empowerment. By merging cooperative finance, net-zero technology, smart city planning, tokenized assets, and international trade diplomacy, the partnership establishes a new model for continental-diaspora collaboration.

Through PREMIER FUNANCES\$, CETS Global Inc., NKGE, and GCATRED, the framework unites:

Banking

Sustainable energy

Digital finance

Smart infrastructure

Trade diplomacy

The result is a scalable model for emerging markets — grounded in legacy, strengthened by innovation, and designed for generational economic transformation.
